FVHD Architects-Planners (Fraytak Veisz Hopkins Duthie, PC) is celebrating 100 years! Our expertise encompasses all aspects of architecture, including the design of new facilities and additions as well as educational programming, capital project planning, feasibility/assessment studies, interior design and construction contract administration services.

We offer an unparalleled understanding of complicated, occupied and phased building alterations, rehabilitation and addition projects.

Our firm's experience also includes forensic investigation of building envelope failures, consulting roof analysis and design, planning, solar photovoltaic design, referendum planning and project scheduling services, all the while embracing promotion and incorporation of cost-effective, sustainable building design principles in our client's projects.

Rendering: Additions and Renovations to the Maurice Hawk Elementary School. The original Maurice H. Hawk Elementary School was initially designed by our Firm in 1962. Fifty-six years later, FVHD is designing a new addition to the school of approximately 30,000 SF. FVHD is pursuing LEED certification as part of the design process.
